

Books Available!

The Warrenton Antiquarian Society, a nonprofit 501(c)(3) corporation, is proud to offer three local-interest books, as fundraisers for the preservation and restoration of Weston, a National and Virginia Historic Landmark.

Nicholas

A boy named Nicholas, a girl named Molly, and a widow named Jane find themselves in danger in this exciting Young Adult ghost story set at Weston.

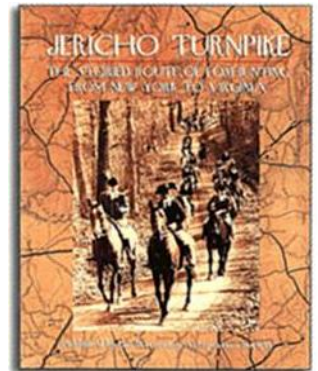

Weston: A Place Apart

Weston, an early-American treasure, is one of Fauquier County's most completely preserved nineteenth-century farmsteads. Standing on ten of its original 440 acres, the old house and its outbuildings are surrounded by giant oaks, lawns and gardens, woodlands and cornfields. In this book are gathered the history of Weston and stories about the estate collected from neighbors whose families have lived in the area for generations.

Jericho Turnpike: The Storied Route of Foxhunting from New York to Virginia

Centered around a reprint of a 1930 *Fortune* magazine article, this wonderful new book chronicles the migration of foxhunters into Virginia during the early 20th century and describes foxhunts along the fabled "Jericho Turnpike," Virginia's Route 17. Fully illustrated, it contains articles by authors Tommy Lee Jones and Alden Hatch, vintage photos and hunt rosters, and the history of Weston, Casanova's landmark farmstead.

Yes! Enclosed is my check. Please send me the following:
